Summary

A Computer Science student at Binus University with experience in IT organizations and professional experience in the retail industry. He focuses on software engineering and web development, with the ability to analyze problems and business processes, particularly in the finance domain. He works well in a team and adapts easily to company culture.

Professional Experience

Technical Developer Internship – PT Lion Super Indo (February 2025 – February 2026)

- Worked on web application projects for the Finance and Supply Chain departments, and collaborated with functional teams throughout the application development process (SDLC).
- Assisted in migrating data from PostgreSQL functions to MySQL Server stored procedures to improve efficiency in handling large-volume data.
- Performed application and database performance tuning by optimizing queries and moving complex logic into stored procedures.
- Conducted application development across UI, API, and database layers.
- Conducted testing and bug fixing, including Unit Testing, SIT, UAT, and Hypercare.
- Created knowledge base documentation for completed tasks and implementations.

Project

Event Management Website (2026)

Link Website: <https://front-end-acara-lilac.vercel.app/>

Documentation API: <https://back-end-acara-dun.vercel.app/api-docs/>

- Developed a web-based event management application for organizing **online and offline events**, allowing users to explore events across various categories.
- Implemented the application using the **Model-View-Controller (MVC)** architecture and documented RESTful APIs with **Swagger** to improve maintainability and API collaboration.
- Integrated a **payment gateway** to enable secure online ticket purchasing and payment processing.

Real Time Point of Sales Management Cafe (2026)

Link Website: <https://salesmanagementcafe.vercel.app/>

Account to access: Email: admin.cafe@gmail.com and Password: Admin1234

- Developed a **real-time Point of Sale (POS) management system** for cafés, supporting menu management, employee roles (Cashier and Kitchen), order processing, payment, and revenue tracking.

- Implemented **User Access Management (UAM)** with role-based authorization to control user permissions and restrict access to application features based on employee roles.
- Integrated a **payment gateway** and real-time synchronization, enabling multiple users to access the system simultaneously while keeping orders and transaction data automatically up to date.

Organization Experience

Staff Division Learning and Training – Bina Nusantara Computer Club *(January 2023 – September 2024)*

- Person In Charge for managing Learning and Training Class consist of UI/UX, Front End Development, Back End Development.
- Manage the schedules and evaluations of mentors, also communicate with them about LnT teaching
- Edit and deliver video recordings to participants and maintain the LnT program to run according to schedule.

Staff Division Programming Class – Himpunan Mahasiswa Teknik Informatika Binus *(June 2023 – February 2024)*

- Managed the execution of programming-related educational events for both university students and the public (Event Summer Class).
- Organized events with the goal of improving participants' programming abilities and encouraging involvement in the tech community.

Freshmen Partner B2027 – Bina Nusantara University *(September 2023 – June 2024)*

- Educate and assisted freshmen batch students B27 (Binusian 27) for surviving and get to know the campus environment.
- Taught about Binus Value is SPIRIT (Striving for Excellence, Perseverance, Integrity, Respect, Innovation, Teamwork).
- Facilitate discussions and answer freshmen's questions related to lectures.

Education

Bina Nusantara University

(September 2022 – Present)

Bachelor of Computer Science - GPA 3.74

Skill

Programming Languages: Javascript, TypeScript, Golang, SQL, Python

Front-End: React JS, Next JS, Tailwind, Shadcn UI, NodeJS

Back-End: Express JS, Node JS

Database: MongoDB, MySQL, PostgreSQL, Supabase

Soft Skill: Teamwork and Collaboration, Analytical Thinking, and Public Speaking
